The London Borough of Camden is collecting contact information and equalities information of residents to carry out an air quality monitoring and awareness raising project as part of the Future Neighbourhoods programme through completion of a series of online or offline questionnaires.

This information will be used to contact you regarding taking part in air quality monitoring activities specifically the loaning of an air quality monitor for use within your home or when out and about around the Somers Town area.

The information will also be used in conjunction with air quality information obtained from the air quality monitors themselves, as well as responses on attitudes and behaviours related to air pollution and air quality. This information will be anonymised and analysed to determine the impact of live air quality information on air pollution reduction & exposure related attitudes and behaviours within the home and when travelling around the area.

Upon completion of a Registration of Interest Survey, the air quality team will contact you to invite you to complete a Preliminary Questionnaire asking you about your attitudes and behaviours related to air pollution production, reduction, and exposure, and to arrange hosting a small air quality monitor for a period of four weeks. After hosting the air quality monitor for four weeks, you will then be invited to complete a Follow Up Questionnaire to ask you your experience with the monitor and your attitudes and behaviours related to having access to live air quality information.
